## Profiles

[in mohamadmourad511](#)

[Mohamadmourad](#)

## Summary

Highly motivated Computer Science student with a passion for building full-stack applications. Proficient in front-end development using React and mobile app development with Flutter. Eager to leverage backend skills and contribute to scalable software solutions.

## Education

**Lebanese International University**

**October 2022 - Present**

Computer Science

Bachelor of Science

3.94

## Projects

### Circulars - Social Media Website

<https://github.com/Mohamadmourad/Circulars>

Developed a social media platform using **React** for the frontend and **Firebase** for the backend, enabling users to interact and engage within a dynamic online community. Key features include:

- **User Authentication:** Integrated Firebase Authentication for secure login and signup functionality.
- **Post Creation and Interaction:** Users can create, like, and comment on posts, facilitating social interaction.
- **Follow System:** Users can follow others and be followed.

This project showcases proficiency in frontend development with React, user authentication.

React, Firebase

### PocketMarket - E-commerce Mobile App

<https://github.com/Mohamadmourad/Pocket-Market>

Built a mobile e-commerce application using **Flutter** for the frontend and **Node.js**, **Express**, and **MongoDB** for the backend, providing a seamless shopping experience. Key features include:

- **Shopping Cart Management:** Users can add and delete items from the cart, making it easy to manage selected products.
- **Backend API:** Developed a RESTful API with Node.js and Express to handle product listings, user orders, and cart functionality.
- **Data Storage:** Utilized MongoDB to store user data, ensuring efficient data retrieval and updates.

This project highlights skills in mobile development, backend integration, and e-commerce functionality.

Flutter, Dart, Node, Express, MongoDB

## Skills

### Programming

Java, Javascript, Dart

### Backend

Node, Express, MongoDB, Firebase

### version control

git, github

### Frontend

Html, Css, Javascript, Bootstrap, React

### Mobile development

Flutter
